3rd Annual Sexual Freedom Summit in Washington, DC September 21, 22 & 23, 2012, “Prohibition Politics: The Assault on Sexual Freedom,” highlights the increasingly vicious attacks in the resurgent war on sex. We will share information and strategies to use in the fight for human rights and sexual freedom, and against the denial of the right to relationships, and families. We will address the undermining of access to health care and reduction of access to comprehensive sexuality education, as well as the criminalization of sexual expression and pleasure.
